## California Oil INVESTMENTS

\$1000 invested in the stock of the Claremont only a comparatively short time ago, is returning \$1598 in dividends, and the shares can now be sold for \$13.653. This is one of the many instances we can cite you where large returns have been made in oil stocks.

The officers of the Lincoln Mortgage and Loan Co. make frequent trips through the oil fields to inform themselves at first hand of the condition of properties, whose stock they offer to the public. They are the largest dealers in oil stocks in California.

A branch office has been established here for the accommodation of their many clients on these islands who are now able to make their purchases of oil stocks in Honolulu.

Of the active low priced stocks we recommend the immediate purchase of shares of the Ventura Oil Development Co., at 15c each. The progress of this company has been very rapid and its present outlook indicates a quick advance in the price of these shares in the near future.

This stock offers an excellent opportunity for the small investor to make large profits. Take your shares now. It is your opportunity, your fortune. Buy without delay.

## BIG DITCH AFTERMATH.

A correspondent writing from the Hamakua ditch, Hawaii, under yesterday's date, says: "They are still busy on the flume that was wrecked and will be finished soon. The others, with the exception of Waima, have all been slightly damaged by land slides shooting boulders onto them; and it appears that the ancient Kanaka custom of first killing a pig to appease the Waipio gods should have been gone into in the first place. Jack Low is now to attend to this, and feels certain that he will be able to remedy the state of affairs."

August first is the date set for the commencement of work toward the construction of the new Young Men's Christian Association building at Hotel and Alakea streets.
